

Jackson Sumner & Associates
Excess & Surplus Lines Broker

JSA Brokerage Division

JSA Brokerage Division specializes in placing medium to large, unusual and complex risks. With deep knowledge and established relationships with our carriers, we take a consultative approach with an emphasis on education and guidance for agents unfamiliar with this segment of insurance.

As industry trends polarize broker-appetites for high-premium or “monster” accounts, Jackson Sumner & Associates (JSA) remains devoted to the needs of all our agents.

We broker all types of Property & Casualty risks and have expertise in many classes of business, including:
